

ASTME541 Adoptions

[ASTME541-22: Standard Specification for Agencies Engaged in System Analysis and Compliance Assurance for Manufactured Building](#)

I have compiled a list of the 10 states that reference ASTME541, along with HUD, and relevant documents supporting my research. There could be more states and there are several countries referencing ASTME541 as well, The following states reference ASTME541, Virginia, California, Illinois, Georgia, Maine, New Hampshire, Rhode Island, Minnesota, North Dakota, and New Jersey. The last four states follow the provisions of The Industrialized Interstate Building Commission.

Virginia:

1CC/MBI 1200 and 1205 Have Been Adopted, But ASTME541 Remains In The State Statute 3 Va. Admin. Code § 5-91-200 - Information required by the administrator

Chapter 91 - VIRGINIA INDUSTRIALIZED BUILDING SAFETY REGULATIONS

3 Va. Admin. Code § 5-91-200 - Information required by the administrator

All of the following information and criteria will be considered by the administrator in designating approval of compliance assurance agencies:

1. Names of officers and location of offices.
2. Specification and description of services proposed to be furnished under this chapter.
3. **Description of qualifications of personnel and their responsibilities, including an assurance that personnel involved in system analysis, design and plans review, and compliance assurance inspections and their supervisors comply with the requirements of the American Society for Testing and Material (ASTM) Standard Number E541-10 - Standard Specification for Agencies Engaged in System Analysis and Compliance Assurance for Manufactured Building or shall obtain ICC or DHCD certifications in the appropriate subject area within 18 months of employment and maintain such certifications in an active status.**
4. Summary of experience within the organization.

5. General description of procedures and facilities to be used in proposed services, including evaluation of the model, factory follow-up, quality assurance, labeling of production buildings, and specific information to be furnished on or with labels.
6. Procedures to deal with any defective buildings resulting from oversight.
7. Acceptance of these services by independent accrediting organizations.
8. Proof of independence and absence of conflict of interest.

Maine

STATE CERTIFICATION OF MODULAR HOMES

SUMMARY: These rules are drafted under the authority pursuant to 10 M.R.S. §9041 and implement 10 M.R.S. §§ 9042-9048 of the Maine Manufactured Housing Act. This chapter sets forth construction standards, compliance assurance, inspection requirements, grounds for violation, and licensee appeal procedures relating to State-certified modular homes.

3) An organizational chart showing management and supervisory persons, including the number of graduate engineers and architects, and the names of all consulting engineers or architects, designating which are full-time and which are part-time engineers. The ASTM E-541 Standard must be used to establish minimum personnel requirements.

Chapter 951: MANUFACTURED HOUSING ACT
Subchapter 3: STATE CERTIFIED MANUFACTURED HOUSING

§9044. Authorized inspection agencies

1. Establishment of procedures and standards. The board shall, by regulation, establish procedures and standards for the qualification of private or public agencies to perform evaluation and inspection services required by this subchapter. The current edition of the Criteria for Agencies Engaged in System Analysis and Compliance Assurance for Manufactured Buildings, ASTM-E 541, as adopted by the American Society of Testing and Materials shall be considered by the board in adopting these standards and procedures.

ASTME541 HUD Federal Regulations As Of April 4, 2024

§3282.358 *Personnel.*

(a) Each primary inspection agency shall have qualified personnel capable of carrying out all of the functions for which the primary inspection agency is seeking to be approved or disapproved. Where a State intends to act as the exclusive IPIA in the State, it shall show that it has adequate personnel to so act in all plants in the State.

(b) Each submission shall indicate the total number of personnel employed by the submitting party, the number of personnel available for this program, and the locations of the activities of the personnel to be used in the program.

(c) Each submission shall include the names and qualifications of the administrator and the supervisor who will be directly responsible for the program, and résumés of their experience.

(d) Each submission shall contain the information set out in paragraphs (d)(1) through (d)(9) of this section. Depending upon the functions (DAPIA or IPIA) to be undertaken by a particular primary inspection agency, some of the categories of personnel listed may not be required. In such cases, the submission should indicate which of the categories of information are not required and explain why they are not needed. The submission should identify which personnel will carry out each of the functions the party plans to perform. The qualifications of the personnel

*to perform one or more of the functions will be judged in accordance with the requirements of **ASTM Standard E-541 except that the requirement for registration as a professional engineer or architect may be waived for personnel whose qualifications by experience or education equal those of a registered engineer or architect. The categories of personnel to be included in the submission are as follows:***
